

# Two new models launched at Caravan Show by CI Autohomes!

## NEW VOLKSWAGEN KAMPER MARK II

The highly successful CI Kamper based on Britain's best selling motor caravan base – the Volkswagen Transporter Kombi – has been greatly improved for 1983.

### Changes include –

- ★ Striking new exterior graphics
- ★ New interior soft furnishings
- ★ New lighter furniture
- ★ Large increase in storage space
- ★ Improved cutlery storage
- ★ Curtains located by velcro instead of press studs
- ★ Greatly simplified method of converting the rear seat to a double bed
- ★ Thicker mattress for upper double bed

- ★ Standard specification now includes a separate crockery drainer next to the sink, and a ladies vanity unit incorporating a mirror
- ★ Detail improvements to the patented double skinned and insulated elevating roof including improvements in sealing, new adjustable catches and re-designed curtain location

The CI Kamper is still the only Volkswagen motor caravan in the World to have a rigid, double skinned and insulated elevating roof\* to help protect against extremes of heat and cold, and to avoid the "wind flap" associated with fabric elevating roofs.

Standard equipment includes cooker, sink, gas/12 volt refrigerator, built-in 12 gallon water tank, slide opening window over the cooker, and a roof rack. A flush

toilet and a completely safe "blown air" caravan heating system are optional extras. The Kamper will seat up to six people in forward facing seats, sleep four adults in privacy in two upholstered double beds, and also convert into a roomy estate car.

We're confident that the CI Kamper Mark II is the best ever Volkswagen caravan conversion and will become Britain's best selling motor caravan in 1983!

### \* Approximate Dimensions

Overall Length	4570mm (15'0")
Overall Height (roof down)	2293mm (7' 6 1/4")
Overall Width	1850mm (6'0 3/4")

### Bed Sizes

Main double bed	1855mm x 1220mm (6'1" x 4')
Upper double bed	1830mm x 1220mm (6'0" x 4')

# CI KAMPER

# NEW TALBOT

# excalibur

**CI Autohomes have produced a revolutionary new coachbuilt body to fit the exciting new front wheel drive Talbot Express chassis/cab which has as standard a very economical two litre engine and a five speed gearbox.**

The Excalibur body is sleek and streamlined for greatly reduced drag, and is lower, narrower and longer than the award winning CI Motorhome. Excalibur breaks with coachbuilt tradition in not having a conventional overcab bed compartment, but nevertheless can sleep up to six adults in upholstered beds. Three berths are standard\* with 4th, 5th and 6th berth options - all with rigid bases and mattresses.

The interior layout is totally unique with a lounge/dinette area incorporating the cab with a 360° swivel mechanism beneath the passenger cab seat. The roof of the cab is cut out to increase the feeling of spaciousness.

Behind the dinette is a separate kitchen incorporating a glass fronted oven/cooker, sink/drain, water heater, 2 cubic ft gas/12 volt/mains electric refrigerator, and a cocktail cabinet. An electric fan in the rooflight removes kitchen smells.

Excalibur features as standard a sophisticated electrical system incorporating a second battery, control panel with battery charger, fuses, battery condition indicator, mains hook up with mains and 12 volt interior sockets and an illuminated gauge to indicate the water tank level. A safe thermostatically controlled 3000 BTU heater is fitted with external air intake and roof mounted exhaust.

There is also a large shower compartment with optional flush toilet, and a rear dinette to seat two adults. At nighttime a folding door divides the caravan into two separate "bedrooms" to provide maximum privacy.

The new CI Excalibur is the most revolutionary coachbuilt motor caravan ever to be produced in Britain and is destined to become "A Legend Ahead of its Time!"

### *Approximate Dimensions*

Overall Length	5490mm (18'0")
Overall Height	2770mm (9'1")
Overall Width	2100mm (6'10½")

CI Autohomes are proud to have been appointed the sole British manufacturer of coachbuilt motor caravans on the Talbot Express chassis/cab by Talbot Motor Company Limited.
