AUTOHOMES (UK) LIMITED ARE OFFICIAL CONVERTERS OF THE VOLKSWAGEN TRANSPORTER KOMBI

NEW VOLKSWAGEN KAMPER MARK 11

The highly successful Kamper based on Britain's best selling motor caravan base - the Volkswagen Transporter Kombi - has been greatly improved for 1983.

Changes include -

- * Striking new exterior graphics
- * New lighter furniture
- * Curtains located by velcro instead of press studs
- * Greatly simplified method of converting the rear seat to a double bed which also provides more floor space than in most Volkswagen conversions
- * Thicker mattress for upper double bed
- * Standard specification now includes a separate crockery drainer next to the sink, and a ladies vanity unit incorporating a mirror
- * Detail improvements to the patented double skinned and insulated elevating roof including improvements in sealing, new adjustable catches and re-designed curtain location
- * New interior soft furnishings
- * Large increase in storage space
- * Improved cutlery storage

The Autohomes Kamper is still the only Volkswagen motor caravan in the World to have a rigid, double skinned and insulated elevating roof to help protect against extremes of heat and cold, and to avoid the "wind flap" associated with fabric elevating roofs. The roof is easily elevated with assistance from gas filled struts and a rooflight with flyscreen provides variable ventilation. For even greater ventilation in hot weather or for even better viewing at sporting events one of the sides can be folded away without affecting the stability of the roof.

Standard equipment includes cooker, sink, gas/12 volt refrigerator, built-in 12 gallon water tank with lockable filler, slide opening window over the cooker, multi-position seat behind the front passenger seat and a roof rack. A flush toilet and a completely safe "blown air" caravan heating system are optional extras. The Kamper will seat up to six people in forward facing seats, sleep four adults in privacy in two upholstered double beds, and also convert into a roomy estate car.

Approximate Dimensions

Overall Length	4570mm (15' 0")
