

VOLKSWAGENS NEW AUTOHOMES

The latest Volkswagen Transporter sports four headlights, a stylish new front bumper with spoiler, special wheel trims, heated rear window and rear wash/wipe, all of which, combined with the Transporter's already well-known attributes of excellent performance, ride, roadholding, traction, quietness and build quality makes it the most car-like commercial vehicle in the world!

To complement the new Transporter, Autohomes have produced three brand new Komet, Kamper and Kameo conversions featuring new exterior graphics, new luxurious soft furnishings, new top quality furniture plus dash top consoles. In addition, the Komet now has fitted crockery and a flush toilet as standard.

Safety features on all three models include rear seat restraint straps, flame failure cut-out on the cookers, isolating taps for each gas appliance, and earth leakage and overload circuit breakers on the mains electric hook-ups. Although it is not a legal requirement for motor caravans, the caravan upholstery in all Autohomes now has fire retardant foam.

The Komet, Kamper and Kameo all have fitted roof racks and fully insulated caravan bodies, and the Kamper is still the only Volkswagen based conversion with a double skinned, fully insulated, rigid elevating roof that provides full headroom for the occupants of the high level double bed.

Choose between the super stylish four berth Komet, the ever popular four berth six seater Kamper, or the incredible value of the two berth Kameo!
